

Route 7 Recommendations: Route 7 is recommended to be restructured to provide bi-directional service on Prince Ave., and to provide transit service to the areas the revised Route 5 will no longer serve. Based on citizen input, staff revised the TDP recommendations to the route, and has extended the Route to include new service on Whitehead and Tallassee Roads. Under Utilized Service to Chalfont and Westchester Drive area is discontinued. The hours and days of operation are recommended to be increased to add new evening and weekend services.
